PROFESSIONAL STATEMENT

Throughout the years I have worked for a number of small companies as a Graphic Designer, Personal Assistant or some combination of the two. By working with these companies, it has allowed me to hone my skills not only in design but in managerial and organizational roles. Having gained this experience with smaller companies has given me an edge as an employee, because it allows me to wear many hats and easily move between rolls of designer, assistant, organizer and executor. Not only do these skills make me a valuable employee, but my desire to always learn and grow in skill and knowledge sets me apart.

EXPERIENCE
